

ABGC CGC EXAMINATION REFERENCES

The references listed below are intended to familiarize candidates with some representative materials that relate to the field of genetic counseling. This list is not intended to be inclusive of all materials that may be useful to you in preparing for the examination. The listed references below were used to author the items that are presented on the CGC exam.

The inclusion of any reference does not constitute an endorsement by ABGC or any of its officers or representatives. Additionally, ABGC is not involved with and does not endorse any preparatory courses for candidates who take an ABGC certification examination.
